About Metassan

Metassan is a next-generation Web3 platform designed for creators, developers, and digital entrepreneurs. Users can create, sell, and purchase a wide range of digital products, all while earning METASS Coin for participation and engagement. The platform ensures a secure, decentralized ecosystem where ownership, payments, and rewards are transparent and trustless.

By leveraging blockchain technology, Metassan combines the power of a global marketplace with the security and decentralization of crypto. Users not only access a wide digital economy but also participate in shaping the future of digital commerce.

Digital Product Categories

Software & Applications

Developers and entrepreneurs can offer desktop, mobile, and web applications, including productivity tools, utilities, and SaaS platforms, directly to a global audience.

Digital Media & Entertainment

Upload and monetize music tracks, podcasts, videos, and other entertainment content. Engage users with interactive digital experiences and reward them with METASS Coin.

Education & Knowledge Products

Create online courses, e-books, tutorials, and professional guides. Reward learners with METASS Coin for completing courses, reviews, or participating in quizzes.

Design & Creative Content

Sell graphic templates, 3D models, illustrations, logos, and other creative assets. Provide subscription-based content or one-time purchases with METASS as payment.

Business & Professional Tools

Offer software, automation tools, templates, and analytics solutions for businesses and freelancers. Help professionals increase productivity while earning METASS rewards.

Games & Virtual Goods

Distribute in-game assets, skins, characters, and collectibles. Enable gamers to trade and monetize virtual goods using METASS Coin seamlessly.

NFT & Blockchain Products

Launch unique NFTs, digital collectibles, and blockchain-based items. Use Metassan as a secure platform for minting, trading, and rewarding creators and buyers.

Tools & Data Products

Offer APIs, datasets, software utilities, and analytics tools. Help businesses and developers access valuable digital resources while using METASS for transactions.

Photo & Video Content

Sell stock photos, video clips, motion graphics, and multimedia content. Enable creators to earn METASS for usage, licensing, and exclusive content sales.

Digital Services

Provide professional freelance services, consulting, and digital offerings. Platforms' integrated METASS reward system ensures fair and transparent payments for all transactions.

METASS Coin

METASS Coin is the backbone of the Metassan ecosystem. It functions as both a payment method and a reward system. Users earn METASS through selling, purchasing, engaging with content, and contributing to the platform's growth. All tokens are transferable to users' personal wallets, empowering full ownership and liquidity.

Total supply: **640M METASS**
Presale allocation: **30–40M METASS**

METASS Coin is planned to be listed on exchanges after a successful presale. The first listing is expected to be on **QuickSwap**, a leading decentralized exchange on the Polygon network. Additional listings may be announced as the project grows and community demand increases.
